

SAMKA

ARCHITECTURAL SOLUTIONS

Samka Architectural Solutions can meet your needs for **specialist architectural metalwork**.

Using skilled and experienced operatives we are able to offer **professional design, manufacture and installation** services in a variety of materials and finishes.

With **over 20 years experience within the construction industry** Samka Architectural Solutions and all of its employees understand that safe working practice is of paramount importance and as a result all of our Installation Teams are fully trained and CSCS registered.

Samka Architectural Solutions completes all of its projects to the highest standard whether they are highly specified helical polished stainless steel and glass stairs or for galvanised mesh cladding and secondary steel framing.

Samka Architectural Solutions offers a professional solution to all of your architectural metalwork requirements.
